

## BlueHarbor Bank (proposed) Achieves Minimum Capital Goal of \$15.4 Million

Mooresville, NC-July 30, 2007- Jim Marshall, President and CEO of BlueHarbor Bank (proposed) (the "Bank"), announced today that in fewer than 90 days the Bank has raised in excess of \$15.6 million in subscribed capital. "Reaching this level of subscriptions in such a short period of time demonstrates the support for this endeavor and the need for a community bank that is responsive to the consumer and business needs of Mooresville," said Marshall. The Bank has subscriptions for more than 1,400,000 shares of Common Stock, which exceed the minimum capital requirement established by the North Carolina Banking Commission. The Circular establishes the maximum offering at \$20.9 million and the organizers expect to continue to sell Common Shares until the maximum level is reached. The Common Stock of the Bank is being offered at \$11.00 per share with a 500 share minimum purchase required.

"We are extremely pleased with the level of success achieved in such a short period of time and will continue seeking investments to reach our maximum offering within the next few weeks," said Marshall. "Our research and collective experience indicated the need for a locally-owned and managed bank that offers a closer relationship with clients. We plan to build an organization that offers big bank technology along with the level of service that the community expects and deserves. We will invest our subscribers' money in experienced, talented bankers and technology that enable us to provide value-added service and advice to clients."

With the stock subscriptions now exceeding the stated minimum, along with the approval of the Bank's charter by the North Carolina Banking Commission, the organizers are moving ahead with the application for insurance from the Federal Deposit Insurance Corporation (FDIC). Pending timing of regulatory approval, the organizers anticipate opening the Bank in the fourth quarter of 2007.
